- To provide Relevant Insights and Feedback to each candidate as per his/her Performance.

07

STUDY MATERIAL

Study Material will be provided in the form of:

- Model Answers & Supplementary Notes
- Contemporary Issues Notes
- Subject wise Worksheets

COURSE FAQ

What is the programme all about?

ITS is a programme for students who are looking for a model which covers both aspects of the preparation i.e Prelims and Mains.

Who can get enrolled in this course?

It will benefit not only fresher but also aspirants who have some experience in this exam.

Will this course help in my self-study?

ITS has been designed in such a way that I supplement the self-study through a Study planner, Targets, regular tests and active learning tools like worksheets.

How the approach classes will be conducted?

Before each test concept class will focus on the overall approach to the topic. I will include micro detailing, important concepts, sources and approach to cover that topic in a holistic manner.

How discussion classes will be conducted?

In discussion class, there will be coverage of the concerned syllabus area along with each question. Instead of merely discussing the answer, which is already present in the detailed hints provided, we focus on conceptual clarity and a broader discussion on the issue, sometimes also covering alternate questions on the same topic.

Why One on One Discussion after copy evaluation?

The general perception of joining any test series by aspirants is evaluation & assessment of their preparation. But after assessment, improvement in marks is also important. We conduct one on one interaction with concerned faculty after copy evaluation of every test. While interacting with faculty aspirants get an idea How to improve marks in a particular question.

SESSION PLAN

Date & Day	Type	Subject & No. Of Questions		Topics To Be Covered
