- Discussion Classes are designed to focus on concept building and Value Addition.

04

Personalised Mentoring

- One on One Discussion with respective Faculty after Copy Evaluation to provide Relevant Insights and Feedback to each candidate as per his/her Performance.

Course FAQs

What is the programme all about?

Mains Test Series is specially designed programme for students to check one's preparation level as well as the time and speed management skills. It gives aspirants an idea about writing an articulated answer in sync with the conceptual requirement of the question asked.

Who can get enrolled in this course?

It is beneficial for both the freshers and experienced as it will provide broader scope for answer writing practice with respect to both Core Conceptual as well as inter-disciplinary approach of the syllabus.

How discussion classes will be conducted?

There will be coverage of concerned syllabus area along with each question. Instead of merely discussing the answer, which is already present in the detailed hints provided, we focus on conceptual clarity and broader discussion on the issue, sometime also covering alternate questions on same topic.

Why One on One Discussion after copy evaluation?

General perception of joining any test series by aspirants is evaluation & assessment of their preparation. But after assessment, improvement in marks is also important. We conduct one on one interaction with concerned faculty after copy evaluation of every test. While interacting with faculty, aspirants get an idea to improve marks in a particular question. As the whole game and grammar of UPSC is in and around improvement of half marks & one marks.

What is the importance of Model Answer & Supplementary notes?

Model answers provide the information only for a particular question, but through the supplementary notes, the overall facts and concepts related to that topic asked in question can be covered. After completion of 13 tests students will have a repository of Supplementary notes covering 200+ Topics of paper 1, 2, 3, and 4. It will be of immense help for the students for the revision before the exam.
