# Highlights

## ■ Course Approach

Prelims is all about managing micro detailing of subjects & handling negative marking. As aspirants tend to get confused about what to study and how to study (i.e. up to what level/extent) for Civil Services Prelims, this programme has been designed to help students to cover whole syllabus effectively within a stipulated time and also have an assessment through test series.

## ■ Syllabus Coverage

This programme covers the complete prelims syllabus including - History, Geography, Polity, Economy, Science, Environment and Current Affairs with the correct mix of Fundamental and Advance level of study to cover micro detailing of sub-topics & current developments.

## ■ Class & Test Procedure

57 Days Concept cum Revision Classes for covering basic concepts. In each session there will be a test of 50 questions (based on the topics given in schedule) followed by Class to cover basic aspects of each topic and approach to handle questions.

The idea behind taking test before classes is that, first students should brainstorm on the given topics through the test to find their strong and weak areas. Then a class on same topics will provide a conceptual clarity that helps to revise the topics twice on the same day. Revision Test (100 Questions) will be conducted after completion of each subject.

## ■ Current Affairs

20 days Current Affairs classes covering last 2 years current topics/issues supplemented by notes.

Current Affairs Classes will also include updates on Indian Year Book (IYB), PIB, Budget and Economic Survey.

Special Classes on Mapping (World & Indian Geography).

## ■ Test Series

Prelims Test Series including 6 Sectional & 20 Mock Test will be provided.

## ■ Study Material

Complete Prelims Study Material & Prelims Current Affairs Material will also be provided (It will cover Current Affairs of past 2 years).
