# Objective

**Prelims is all about managing micro detailing of subjects & handling negative marking. As aspirants tend to get confused about what to study and how to study (i.e. up to what level/extent) for Civil Services Prelims, GS SCORE Target PT Programme has been designed to help students to cover the whole syllabus effectively within a stipulated time and also have an assessment through Test Series.**

The objective of this program is to reflect the aspirant's preparedness for the exam and to provide mentorship to improve in the right direction by pointing out the shortcomings.

The program is designed in such a way that the candidates will be able to assess their present level of preparation in each subject and to further track the deficiencies. With the help of self-assessments, tests, supporting study material and detailed classes, candidates will effectively improve in weak areas of each subject.

The session will start from self-assessment and will end with the final report of what you have achieved during this journey and which are the areas that need more in-depth study. Thus, this programme will help you to track your preparation for the prelims and have confidence about the completion of entire syllabus.
